No permit shall be issued to any person, firm or corporation to do or cause to be done any plumbing, electrical, mechanical or gas fitting work regulated by the Iola Kansas Codes unless such person, firm or corporation is a registered; licensed contractor.

No permit shall be issued to any person, firm or corporation to do or cause to be done any new construction of a structure, or make structural repairs, remodel, alter or add on to any existing structures unless such person, firm or corporation is a registered; licensed Contractor.

Exceptions:

- a. Any permit required by the Iola Codes may be issued to an unlicensed, unregistered person to do any work regulated by the Codes in a single-family dwelling that is used exclusively for residential purposes, including the usual accessory buildings, providing that the person certifies that he/she is the recorded owner of such dwelling and accessory buildings and the same are occupied by said owner. Further, all work performed by the unlicensed, unregistered person shall be limited to only that work on his / her own property. Any plumbing or electrical work that connects directly to the City owned utility and all gas piping installation or repair shall be specifically excluded.

The following conditions apply to the above exception:

- All work must comply with the applicable codes, ordinances and policies of the City of Iola that are in force at the time the project is started.
- The permit holder must request all inspections that are required for the work being done.
- If the Code Services Officer determines that the work is not being performed to meet the minimum standards of The Iola Code in a safe, workman-like manner he/she shall order the work stopped and the permit holder must retain a licensed contractor to complete the project.
