Location of the sidewalk__ or curb__ being replaced:

Contractor Information:

Name: _____

Phone: _____

Address: _____

Items to be submitted for validation of project completion:

- 1) The frontage of your lot(s): _____ feet
- 2) Concrete invoice showing mix design and amount of air entrainment in mix.

I, _____ owner of _____ hereby make application to the City of Iola for the Sidewalk/Curb Replacement Program. I understand that under this Program the cost of replacing the sidewalk or curb will be on a shared basis. The City will pay no more than \$1.75 per square foot on sidewalks, and on curbs the City will pay no more than \$6.60 per linear foot or the cost of the concrete, whichever is lower. This is paid on each individual project, and the remaining costs are my responsibility. ALL curb projects MUST be reviewed and approved by City staff to insure they coincide with existing curbing. Curb projects must be completed by a licensed contractor approved by the City, and will be constructed as TYPE 1 (Combined Curb and Gutter). There is a maximum on each individual project at \$1250 for residential and \$2500 for commercial. The City also funds installation of handicapped ramps at street corners – paying \$150 towards the cost of each ramp.

ALL WORK MUST MEET THE CITY OF IOLA SIDEWALK/CURB SPECIFICATIONS AND PASS INSPECTION BEFORE PAYMENT IS RECEIVED
